WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--6 September 1984

25X1

CIPC Organizational Activities

25X1

- The formalities of employing [] have been completed. We received and promulgated his contract as an Independent Contractor on 5 September 1984.
- [] will be on leave next week. [] has been assigned to provide backup support to [] during [] absence.

25X1

- The Cruise Missile Working Group met on 5 September. [] tasked the members to provide inputs on the status of their respective organizational implementation of the recommendations contained in the Cruise Missile Study. [] plans to provide us a draft report by 31 October.

Narcotics Activities: []

25X1

- The Narcotics Working Group met on 29 August to review draft submissions for the final report due to the DDCI on narcotics intelligence issues. The consensus of the meeting was to take the drafts from State/INM, the OVP/NNBIS, and the CIPC staff and to

develop a short (8-10 pages) paper assessing the progress made and problems remaining in interagency coordination, and substantive narcotics intelligence issues.

- The assessment will take note of the institutional architecture now existing for narcotics intelligence coordinating and will probably conclude that no additional recommendations are needed in this area, and that there is no current pressing need for the establishment of an intelligence center to manage the overall narcotics intelligence effort.
 - The assessment will also go on to note some problem areas remaining in the substantive narcotics intelligence area; commend these points to the NIO/Narcotics for attention; and emphasize the fact that the NIO/Narcotics has taken the lead in providing an overview of scheduled production on foreign narcotics issues within the Intelligence Community and the intelligence components of other non-NFIP agencies.
 - The final report may include as appendices, some of the draft submissions prepared by State/INM, the NIO/Narcotics, and the OVP/NNBIS. [redacted] hope to complete a final draft for review by the Working Group in the next two weeks.
- 25X1
- The [redacted] version of the CIPC Narcotics Report has been printed and is being distributed to respective components within the narcotics community. DIA plans to pouch copies to a number of Defense Attaches; State/INM to respective COMs in key narcotics countries; and the OVP/NNBIS plans to send copies to the respective intelligence coordinator in the six regional NNBIS centers.

Mobile Missile Study: [redacted]

25X1

- As usual, the Panel held two meetings last week:

- On Wednesday (29 Aug) they received two DUSD(C³I) briefings.

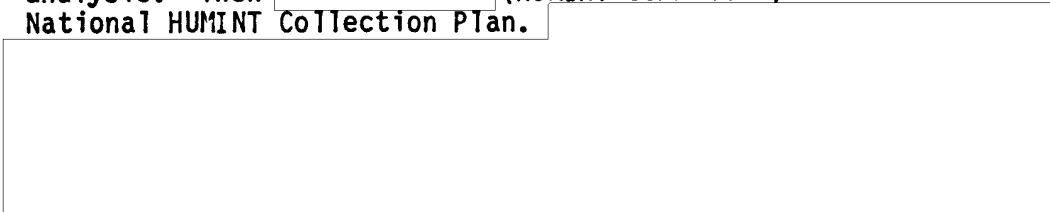

25X1

[redacted] also presented a summary of the WSSIC Mobile Missile Report - the document that eventually resulted in the Panel's establishment.

- On Thursday (30 Aug), [redacted] (DIA/DB-5) briefed them on his "Imagery Collection Potential Study." A lively discussion ensued on the future of Imagery collection interpretation, and analysis. Then [redacted] (HUMINT Committee) summarized the National HUMINT Collection Plan.

CBW Study: [redacted]

25X1

- The CBW Study has been reformatted and the Key Judgments and Recommendations sharpened. We have also met with [redacted] and reviewed the revisions with him. [redacted] thinks we have a significantly better study. Additionally, we met with [redacted] to discuss the areas troubling CIA. As a result, we made some changes which appear to have gained CIA support for the study. These changes do not alter the substance of the study, but clarify the role and responsibility of the new subcommittee.

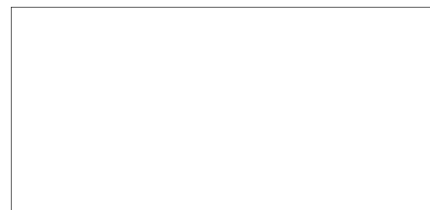

25X1

25X1

25X1

- The first meeting of the new subcommittee has been scheduled for Friday, 21 September to develop their Terms of Reference. [redacted] will chair the meeting.

Terrorism: []

25X1

- [] attended an IICT meeting last week, the first held in several months. [] MFR is attached. 25X1
- [] is updating the CIPC Terrorism Working Group study. His objective is to make it a companion document to the DCI's NSDD-138 response. The NSDD reply concentrates on resource requirements. The report update will therefore concentrate on non-resource considerations such as organization, procedure and training. [] has advised the Terrorism Working Group members that the report is being updated, but does not plan to call a working group session until we have a fully satisfied draft. 25X1

NOTE: Although this effort is ongoing within the staff, [] have a meeting scheduled with [] on 11 September to discuss a possible chairman for completion of this effort. 25X1

China Study: []

25X1

- A final working group draft report has been accomplished, and endorsed by all members. Issues raised by the NIO/SP and the NIO/EA, neither of whom were active participants in the report's initial preparation but were very active in the closing review period, continue to be unresolved. A few administrative details (e.g., paragraph classifications) remain to be tidied-up.

Assessment Evaluation Concept

- We await your comment and guidance on the latest concept paper. 25X1

Miscellaneous

- [] is working with [] in inviting Vice President Bush to address the NMIA annual banquet in November. 25X1
